2.5.2 – Reforms initiated on Continuous Internal Evaluation(CIE) system at the institutional level (250 words)

Presently in the U.G. level two types of systems (CBCS and non CBCS) are running in the college. In the old system (non CBCS) the students have to

appear in the University Examinations as Part I Examination at the end of 1st year, Part II Examination at the end of 2nd year, and Part III Examination at the end of 3rd or final year. Regular class tests, Mid Term Test and Selection Test are conducted centrally by the college for the students of the old system. Students need to qualify the tests to appear in their University Final Examinations. The answer scripts are shown to the students and necessary suggestions are given by the faculty members to individual students so that they can do better in their University Examinations. All the UG students of the B.A./B.Sc. final year (Part3) of the old system have to submit a project paper on Environmental science. The projects have to be carried out under the supervision of the concerned teacher. The choice based credit system (CBCS) for UG PG was introduced by the University of Calcutta from 2018-19 academic session. The college is affiliated to University of Calcutta and it follows the same. The University Examinations are now held at the end of each semester and students are allowed to appear in the Semester end examination provided they have attended at least 75 classes for each paper. In each semester UG PG students have to appear in the internal assessments conducted by the college itself. No student is allowed to appear in the final examinations without appearing in the internal assessments.
